

Piston ring for piston engine, with diamond-like coating

Patent number: DE19825860
Publication date: 1999-12-16
Inventor: SCHMID JOSEF (DE)
Applicant: ELGAN DIAMANTWERKZEUGE GMBH & (DE)
Classification:
- international: F16J9/26; F02F5/00
- european: F16J9/26
Application number: DE19981025860 19980610
Priority number(s): DE19981025860 19980610

Abstract of DE19825860

A piston engine piston ring (5) made in stainless steel has a coating of DLC (diamond-like carbon) (15) on its outer circumference. The DLC is extremely hard and minimizes friction between the piston and cylinder lining.
